

INTEGRATED PUMP SKIDS

One package. Connect and run.

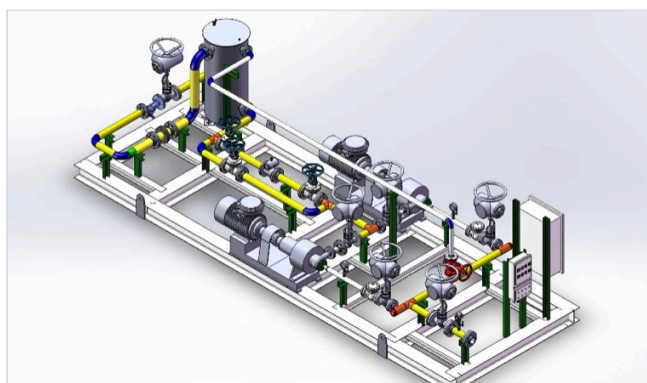

Pump, motor, piping, valves, instruments, variable-speed control panel and enclosure, built as one package by one supplier.

One of the 2025 skids for the Tarim Oilfield, in the EHIK workshop.

Doors open for access to the pump, pipework and controls.

Skid layout, designed in 3D.

- ✓ **No special foundation**
No concrete foundation or anchor bolts are needed.
- ✓ **Built for unattended sites**
In service at remote, unattended gas-field sites, including in the desert.

- ✓ **Connect and run**
Connect the pipes and the power, and the skid is ready to run.
- ✓ **Easy to move**
The whole skid can be moved to a new site and used again.

In the desert since 2022.

In 2022, EHIK supplied one unattended pump skid for gas-field water in the Hotan area of the Tarim Oilfield. After three years of good service, the customer ordered two more skids in 2025.

2022 1 skid — **2025** 2 more skids

Open skid for the Zhongyuan Oilfield, 2024, lifted as one unit.

What we supply

- EHIK pitot tube pump and motor
- Piping, valves and vessels for your process
- Instruments
- Variable-speed control panel
- Enclosure, or an open frame
